## HARRISON AND TOWNE.

Speculation as to Democratic Standard Bearers Four Years Hence. REPUBLIC SPECIAL.

Chicago, Ill., Nov. 25.-"Harrison and Towne in 1904, with sliver sidetracked"that was the whisper heard to-day, following the conference between W. J. Bryan. Mayor Harrison, Charles A. Towne, Senator Dubois of Idaho, Robert E. Burke, Frank Cannon of Utah and several other party

leaders Saturday night and Sunday.

The dissolution of the Silver Republicans is held to be necessary before Mr. Towns can be considered for the vice presidency.

His nomination for Vice President is to be the chief comfort offered to the silver advocates in exchange for a modification of the party's attitude on silver. Imperialism according to the present ism, according to the present Democratic plans, is to be made the great issue in 1904. Mayor Harrison's nomination, it is held, would go far to placate the anti-silver men in the party, and it is believed, with a modification of the platform, would mean the return to allegiance of such men as ex-

President Cleveland, Don M. Dickinson, Daniel Lamont and John G. Carlisie.

Mr. Bryan recognizes that a third nomination is beyond his reach. He is and recus, however, of taking the lead in the selection of the probable standard bearer, and is said to be ready to favor Harrison and Towne for 1994.

DRY COODS COMPANY.

by succeeds himself, President McKinley may receive by wire the resignation of Postmaster Miner. Brenholt's Attitude.

Postmaster Miner.

Brenholt's Attitude.

"I know a man Tanner is depending on for a vote," remarked a Springheid friend of the present Senator to me, "woo is a Cullom stalwart. That man is Senator Brenholt," he continued.

This would be interesting if true. Brenholt, of all the members of the General Assembly, knows less about his own mind than even President McKinley, and it is a proverb that McKinley has been on every side of every great public question. Brenholt is permitted by law to change his mind as often as he changes his socks. On the morning of the caucus he may have decided to vote for Tanner, and he can change several times hefore his name is reached on the roll call in the caucus-room. Springfield has turned up another hot candidate for a State office. Allen H. Smith, a young business man, and the only simon pure, original Yates man in the county, is being urged for the Kalirond and Warehouse Board. His qualifications are superfor to those of many seekers after the place, and in addition he is not a politician. Judge R. W. S. Wheatley of Duquoin is another candidate for the ralload and warehouse job, and if there is a man in Egypt more deserving, let him show Governor Vates his credentials.

Young Mr. Phillips of Olney is sure to get a good thing, and it may be this very job of Railroad and Warehouse Commissioner. It will be remembered that Mr. Phillips was the solitary Yates delegate from Richland pose of demonstrating the necessity of taking the Governor into consideration in all Senator Cullom warms his shins in his repeats the stereotyped phrase: "I am sure Governor Tanner makes a weekly trip to the metropolis for the purpose of getting his name in the newspapers and declares "with confidence" that he has a sure thing and unless Judge Yates decides to take sides with him it is doubtful if his name goes before the caucus. He is claiming twelve votes in the joint caucus, and this claim includes Small and Curtis, who are bound by the most solemn oath and binding instructions to vote for Cullom "as long as

Young Mr. Phillips of Olney is sure to get a good thing, and it may be this very job of Raliroad and Warehouse Commissioner. It will be remembered that Mr. Phillips was the solitary Yates delegate from Richiand County, and he was badgered and browbeaten to change to Reeves as soon as the delegation started for Peoria and came near being forced to change his vote on the third ballot. The balance of the delegation was for Reeves, and they wanted to make it unanimous. But Phillips stood square for Yates from start to finish. He was put on the delegation at the suggestion of Aden Knopf, who made such a valiant fight for a job under Governor Tanner four years ago. Phillips is a poor man, a hardware store clerk, and "something good" will no doubt be welcome to him. His father was an intense admirer of Yates senior forty years ago, which accounts for the interest the young man took in Yates junior.

Most of the State boards will be swept clean by the new broom. Nothing will be left of the once mighty Tanner machine. This reminds me that Secretary Rose recently called his forces before him and made a speech something like this:

"Gentlemen—The election is over, and I desire to tell all of you that only one man in my department has a sure thing on a job for the next four years, and that man is myself. I am under no obligations to keep any of you, and I suggest now that you all look for something else to do by January 1. Some of you will have to go about that time. I don't know who it will be—it may be every one, and so I give you all fair warning. Let me add another word, and that is this; Don't bother about getting up petitions or bringing pressure to bear on me to keep you. I know you all. I know what you have done in politics and how valuable and influential you are in your homes."

This was a bolt of electricity from a clear sky and has set the tongues of the Statehouse employes wagging. It is understood that Andirer McChillough will. It sout a ner had the reputation of being a stiff poker player, and Tom Needles once said not regarded seriously by the politicians. It is generally conceded that he may be able to defeat Cullom, but the successful I met one of Governor Tanner's closest friends the other day, and a man holding high office under the State government. "I don't know," was the reply. "I have done my duty. I had certain things to do, and they are done. John tells me that he has got old limber legs beat to a fare you well, but he is not sure he will be the best ing Cullom. Tanner and Cullom traveled to Chicago together Friday night—that is, they were on the same sleeper. "Neither of us knew it," remarked the Governor, "until we met in the washroom of the sleeper in the "We greeted each other pleasantly enough," said Cullom, "I am sure I have no hard feelings toward John Tanner. It is Senator if he can. The field is open to all

This was a bolt of electricity from a clear sky and has set the tongues of the Statehouse employes wagging. It is understood that Auditor McCullough will let out a number of his men, also. Secretary Rose is an intense friend of Governor Tanner, and it may be that some of the Tanner leaders will be given places in the Secretary's office. There are about 150 to 200 jobs under the Secretary of State, and about a score of them are good ones.

There is at least one good, big office to be given out as a Christmas present before the battle opens up here in January. I refer to the collectorship of internal revenue for the Springfield District, now filled by Judge Richard Yates. His resignation is in the hands of the President, to take effect as soon as convenient, or not later than January 1, 1901. This place is at the disposal of Senator Cullom, under the rules of senatorial courteay. Mayor Loren Wheeler of Springfield is a candidate for it. Henry Yates, brother of the Goyernor-elect, and present Chief Deputy Collector, is also a candidate.

If the new Governor is ready to play ball with Mr. Cullom no doubt he can have the honor of selecting his successor in the Collector's office. This will furnish an easy way of getting his brother a good berth, a better one than the Governor of Illinois can give him. The best thing about it is the charge of repotism could not be laid at the door of the Governor. If Henry Yates is made Collector in place of his brother. Senator Cullom may provide another place for Mayor Wheeler. There will be a vacancy in the Springfield Post Office within a very few days after the election of a United States Senator in January, if Cullom is re-elected. Mayor Wheeler may get that place.

Postmaster Louis E. Miner, who controls the State Journal, has been a strong advocate of the Governor and his policles and has not heeltated to attack Senator Cullom whenever opportunity presented. This, too, notwithstanding the fact that the office of Postmaster of Springfield is the personal perquisite of the United States Senator living in Springfield, and Mr. Miner owes nobody but Cullom for the office. Fourth Assistant Postmaster General's Recommendations In His Annual Report.

## A COMMERCE LAW CHANGE.

Telegraph and Express Companies Should Be Forbidden to Aid or Abet Lottery or Green Goods Swindlers.

Washington, Nov. 25 - Fourth Assistan Postmaster General John L. Bristow, in his annual report, recommends an amendment to the interstate commerce law prohibiting telegraph and express companies, or their employes, from aiding or abetting in the green goods or lottery swindles, or any cheme carried on partly by mail and partly by common carrier, and in violation of the postal laws. Other legislation urged is as

Authorizing post office inspectors to take out search warrants whenever necessary; payment of incidental expenses incurred by local officers or others in arrests, detention and keeping of prisoners violating postal aws, until transferred to the United States Marshal's custody; construction of inspec tor's lookout towers in post offices whenever deemed necessary by the Postmaster General, and prohibition of loose pouching of circulars, calendars, etc., owing to small pleces of mail matter frequently slipping in large unscaled envelopes in transit.

There were 15,142 appointments of Post-masters made during the last fiscal year, 14,455 being of the fourth class and 767 being

presidential, an increase of 538 in all over ast year.

There also has been an increase in the number of resignations, especially of fourthclass Postmasters. Fewer removals for ir

regularities were made than last year. There were 3,600 post offices established dur-ing the year, an increase of 665 over last year, and 1,912 offices were discontinued, an increase of 407 discontinuances over last ear, mostly due to rural free-delivery extension and public highway improvements.

A vigorous effort has been made to sup-press post offices conducted throughout the country for the sole benefit of some corporation, patent medicine firm or priva poration, patent medicine firm or private institution whose operations deprive the Government of its legitimate revenues. The company or corporation usually has some one connected with it appointed Postmaster, and thus gets the advantage of the cancellations or the salary and allowances of the Postmaster. These institutions sometimes have derived thousands of dollars of revenue from the Government which virtually amounted to a commission or dis-

nars of revenue from the Government which virtually amounted to a commission or discount on their postal business.

There were forty-seven resignations and forty-five deaths of presidential postmasters and 919 deaths and 8,013 resignations of fourth-class postmasters. On June 30 last the number of post offices was 76,688, as follows:

First-class 194; second 852; third 2 157.

follows:
First-class, 194; second, 852; third, 3,187; fourth, 72,455. The total number of arrests during the fiscal year for offenses against the postal laws was 1,528, including 119 postmasters, 29 assistant postmasters and 144 post office clerks, carriers and other postal employes, Of the total number arrested, 526 were convicted.

CAPTAIN SHIELDS CAPTURED.

Battalion Sent in Pursuit Was Resisted Several Days-Soldiers Tell Stories of Cruelty

of the Natives.

REPUBLIC SPECIAL San Francisco, Nov. 25 .- Paul Springer, who is on the United States steamship Bennington, writing from Santa Cruz, Mariniuque Island, Philippines, October 17, gives details of the surrender of Captain Devereux Shields and fifty-one men to a supe rior force of Filipinos on September 14.

During an eight hours' fight, at a critical moment, when all depended upon a leader, Captain Shields was wounded and fell unenscious, Confusion ensued, and before the Bergeaut could assume command the tide of battle had turned.

The tired little band rallied and fought on, finally being compelled to surrender because of lack of ammunition. The insurgents took quick possession, but not before most of the bolts from the guns had been thrown away.

The first act of the Filipinos was to plunder the American commissariat. The lost everything valuable they carried and some of the men were deprived of

their clothing. Captain Shields regained consciousnes fust in time to save a finger on which were two rings. A Boloman held his hand and was preparing to amputate the finger for the rings. The Captain relieved him of the necessity by surrendering the gold bands.

The soldiers were witnesses of terrible mutilation of their dead. A lad, shot through the heart, was literally backed to pieces. Over the wild Bolomen the inpieces. Over the wild Bolomen the in-surgent commander seemed to have little

authority. After relieving the prisoners the insurgents took to the jungle. Pursuit followed quickly. Colonel Ander-son set out from Sarta Cruz on September 17, but the natives dodged the American relief force and got away for the time being Then Anderson sent for re-enforcements and when they arrived he resumed the chase. After ten days the Americans over hauled the natives and compelled them to surrender Captain Shields and his men.

REPUBLIC SPECIAL Washington, Nov. 25.-Request has been made of Great Britain by the State Department that the Filipino Junta at Hong-Kong be suppressed. While this request may be denied, the United States will insist that measures be taken to prevent violation of

A high authority said to-day that this Government entertained little expectation that Great Britain would be able to suppress the junta, but it does expect the London Government to maintain a strict su pervision over the operations of the junta and to prevent it from shipping arms and

supplies to the Filipinos. The authorities have no doubt that many of the rifles delivered to the Filipinos are of American make, as reported from &a.
nila, but German and English traders seem to have been doing the bulk of the ousi-ness, and as these traders operate from Hong-Kong, the supposition is that they are employed by the Filipino junta there.

The authorities have been unable to obtain direct evidence to prove that American manufacturers are supplying the Filipinos with munitions of war. It is believed, however, that American arms have been purchased by firms in Hong-Kong and resold to the Filipinos through agencies controlled by the junta.

# NATION NEEDS ONE BILLION DOLLARS.

THE BEST PLACE

United States' Request of Great Congress May Be Called Upon to Appropriate That Sum for Coming Year.

> REPUBLIC SPECIAL Washington, Nov. 25.-The total appropris tions to be made at the coming session of

> Congress, it is said by careful observers,

may be over a billion dollars. There are two features of legislation which will come up for consideration before Congress during the session which will, if assed, call for a large expenditure of public money. These are an omnibus claims bill and a river and harbor bill.

With the increased appropriations for the army and navy, and increased estimates in all other branches of the Government service, with the vast number of private pen-sion and public building bills pending, with the Nicaragua Canal and ship-subsidy bills and with the claims and river and harbor bills, it is thought quite likely that the sum of appropriations may reach \$1,000,000,000.

## MEMORABLE EXPERIENCE.

Girl Imperiled Her Life to Give Alarm of Burglar.

Chicago, Nov. 25.-Walking a narrow stone

edge, thirty feet from the ground, connect-

ing the balcony of her father's residence, 4518 Forrestville avenue, with that of a neighbor, Miss Jennie Younglove early this morning gave the alarm that a burgiar was at work in her home.

A squad of police responded to a telephone call, but the intruder, after frightening Miss Younglove's mother into hysterics, had excaned.

Miss roungiove was absent from the city and the two women and a servant were alone in the house. Having given the alarm, Miss Younglove retraced her steps to protect her mother. The burglar took nothing of value.

## Where's Father?

He's gone for the doctor the baby has the croup. Don't be left alone in this way again. The next time he goes down town ask him to buy a bottle of Ayer's Cherry Pectoral. Then the moment you hear that hollow, barking cough give a dose of it. Relief is prompt. Always keep it in the house.
